Pacific Coast Congress of Harbormasters & Port Managers

2026 Fall Conference Sponsorship Opportunities

October 27-28, 2026 | Everett, WA

The PCC Leadership Conference is the Pacific Coast Congress of Harbormasters and Port Managers' inaugural fall leadership conference. Held in partnership with the Port of Everett, the conference brings together maritime professionals from across the Pacific Coast for two days of peer conversation, facility tours, and professional development built around one of the most significant waterfront transformations in the region.

This is not a classroom, and there is no exhibitor floor. Sponsorship of the PCC Leadership Conference places your organization in genuine partnership with PCC and in front of the maritime professionals who plan, manage, fund, design, build, and operate public ports and marinas. Sponsorships carry the full visibility load, making each opportunity meaningful and exclusive.

ACROSS THE TABLE

For the first time at a PCC conference, port and harbor managers will speak openly about how they select the firms they work with, what makes a proposal stand out, and what disqualifies one before it is fully read. The Port of Everett's leadership team will share their own experience, and port managers from across the Pacific Coast attending the conference will add their perspectives from their own organizations. This is an honest, unscripted conversation that your firm cannot get anywhere else, and it is happening in a room where your name is on the wall.

PCC is also developing a dedicated program for future conferences focused entirely on giving firms direct access to the inside of how public ports and harbors evaluate, select, and partner with the firms they work with.
